Native American Owned Small Business (ISBEE)

CAPABILITY STATEMENT

SolitXcel is mentored by Adanto Software, an experienced government contractor. Since their founding in 2009, Adanto has served many small startups to large enterprise clients in the private sector across many verticals including: Banking, Professional Services, Technology, Print & Publishing, Retail, Manufacturing, Media, and Healthcare. Our JV will help agencies efficiently deliver high quality IT solutions, while helping to meet their strategic sourcing, compliance requirements, and socio-economic goals. SolitXcel is ideal for IT contract vehicles for GWACs for 8(a) STARS III or 8a set-aside for small or disadvantaged businesses. SolitXcel is a Native American Owned Small Business (ISBEE).

IT SERVICES & SOLUTIONS OFFERED

DevOps

- Enable organizations to develop software quickly and efficiently through continuous integration and continuous delivery (CI/CD) implementing best practices and tools.
- Streamline DevOps workflows to reduce the burden on development through automated pipelines, testing, and deployment.
- Help agencies and organizations wanting to move away from waterfall to an agile approach to help get to market faster than ever before.
- Move legacy systems to the cloud - Azure, AWS, GCP, Oracle Cloud

Mobile App

- Android and iOS Native Development
- React Native Web and Hybrid app development.
- Mobile backend development using RESTful or GraphQL supported micro services in Cloud to connect to data layers.
